

## ***Health Update #10***

### ***None to Go!***

**By James W. Goll \* April 28, 2005**

#### ***Second Round of Treatments Over!***

I have just completed the fourth of four treatments of the second round of passive immune therapy at Vanderbilt Hospital in Nashville, TN. My friend and Secretary of our Board of Directors, Mark Rodgers, was at the hospital with me so we could celebrate what I believe is the close of another chapter.

I do not know for certain yet if this is the last round, but my "knower" says so! Scans will be done at the end of May and tests results will be evaluated in the first week of June. I will now put more focus on detoxing my system during the month of May. Michal Ann and I are committed to the journey of going from poor to great health! III John states, "May you prosper and be in health even as your soul prospers!" We claim that one!

I will still take on a slower pace for the month of May and do very little public ministry the whole month. Our 29<sup>th</sup> wedding anniversary is May 15<sup>th</sup> and we are planning a special get away!

I also want to re-emphasize something from last week's blood work. All my blood work came out excellently in every single area. In fact, every system tested as normal. This is helpful as I had been having problems over the last few months with getting "dizzy" due to my blood sugar levels being thrown out of balance. But even my glucose levels came out normal - so that is way awesome! I am beginning to slowly feel better.

#### ***Update on Things with Michal Ann***

Tests results are back from Michal Ann's recent scans. Earlier tests revealed "something questionable" on a lung and also on a bone. This was potentially quite serious. But, thank the Lord, if there were places of cancer previously - they are not there

now! We are very grateful for this breakthrough. While we have this positive report on one hand, the doctors did confirm that there are two active spots of cancer on her liver. So she still has progress and healing that we are contending for.

Michal Ann has a new Spirit-filled medical and nutritional doctor who is committed to helping her fight the cancer in alternative ways. She will possibly be referred to a doctor in California to help oversee this nutritional approach. Please be in faith with us for a breakthrough - that is our request! Michal Ann receives warfare prayer at our ministry center and worshipful soaking prayer at our church every week. We are fighting the good fight of faith on every level. Many people are joining our staff each Thursday as a special day for prayer and fasting also. Thanks to all of you who do so.

Michal Ann is leading the team to Mozambique in June to be with Heidi Baker and Iris Ministries. A ministry team of 22 people are going to Africa together to spy out what authentic apostolic Christianity looks and acts like! They are excited!

### ***The Family Matters!***

This last Friday night was GraceAnn's senior banquet at Franklin Classical School. It was wonderful and she looked gorgeous. Her graduation is right around the corner on May 28. What a delight it is to have kids who love the Lord and are committed to His plans for their lives.

I just completed two sessions in a new four part series of teleconference calls on "***Do You Want to Hear God's Voice Better?***" It began on April 19<sup>th</sup> and goes through Tuesday, May 10<sup>th</sup>. You can still get in on the last two sessions if you desire. I thank the Lord for Bill Greenman and Chris DuPré of **LeadersTalk.com** for their vision, leadership and hosting skills. Visit our web site at [www.encountersnetwork.com](http://www.encountersnetwork.com) and to register or for more information.

All four of our children (young adults at this point) are going on mission's trips this summer. Justin, GraceAnn and Rachel will all accompany their mother to Mozambique and Tyler will join the church youth group on a trip to Mexico. So that is just plain awesome!

### ***Let's Finish the Task Well!***

Please keep the prayer up! Let's knock this cancer out of Michal Ann's liver and let's pray for the remaining stuff left in me to dry up in Jesus name! We want full recovery and to end up in a better place than when this began! Let's finish this task and do it really well! My word to you is - "Don't stop - keep going!"

Remember - when you have done all - Stand! Continue to stand with us on the promises of God's Word!
